2025 / 2026 THERAPY CATALOGUE

Comprehensive Pediatric Therapy Packages

Structured, multidisciplinary rehabilitation plans designed to foster developmental breakthroughs, build lifelong functional independence, and support your child at home, school, and play.

Save Up to 14%
On Bundled Plans

Why Families Choose Our Prepaid Therapy Packages

Clinical Excellence • Proven Consistency • Superior Value

Consistent Milestone Progress

Pre-booked regular therapy sessions eliminate gaps and missed visits, preventing regression and accelerating neural adaptation during critical developmental windows.

Multidisciplinary Synergy

Occupational Therapists and Speech-Language Pathologists collaborate directly on your child's goals, ensuring unified strategies for sensory, motor, and communication needs.

Significant Financial Savings

Enjoy savings of up to **14% off regular session rates**. Plus, high-value packages qualify for flexible staggered payment arrangements (2/3 deposit to activate).

High-Value Clinical Add-ons

Packages include **free Caregiver Coaching**, formal standardized Developmental Assessments, and detailed Clinical Progress Reports for schools and pediatricians.

Flexible Delivery Modes to Suit Every Family Routine

Care Delivered Where Your Child Learns Best

FACILITY-BASED

Clinic at Feruzi Towers

Full access to sensory integration gyms, specialized suspension equipment, and sound-treated speech suites.

HOME / SCHOOL

Natural Environment

Therapists visit your home or school to address real-world routines, classroom participation, and daily living skills.

TELE-THERAPY

Secure Online Sessions

Interactive video sessions with intensive parent-mediated coaching, ideal for traveling families or remote regions.

HYBRID SPLIT

Clinic + Home / Online

Balanced 50/50 approach: clinic gym equipment combined with real-world home or virtual reinforcement.

Core Therapy Disciplines Included

Evidence-Based Pediatric Interventions

Occupational Therapy (OT)

Sensory processing, bilateral coordination, fine/gross motor milestones, pencil grip, self-care (feeding, dressing), and emotional regulation.

Speech & Language Therapy (ST)

Expressive/receptive language, articulation, phonological clarity, AAC (augmentative communication), social pragmatics, and feeding therapy.
